# NEW! PROFILE SERIES

## Outside Auto Lifts

Harmar's Profile Series includes sleek, contemporary designs that blend into the vehicle's styling. They are compact but powerful, to carry many power chairs and scooters securely, with no modifications needed. The space-efficient rear profile permits greater visibility out the rear window when the lift is folded and creates an understated presence on the vehicle.

Shown: AL160

### AL160 Profile Scooter Lift

The streamlined design features an open platform design with a simpler, smaller silhouette that blends into the vehicle and ensures a clear rear view. The automatic hold-down foot secures virtually any scooter with a wheelbase from 75cm to 105cm with no modifications.

Capacity: 160 kg  
Installed Weight: 34 kg

**AL580 Profile MWD Lift**

This compact lift transports 25cm mid-wheel drive (MWD) power chairs with solid suspension casters.

Capacity: 160 kg

Installed Weight: 29 kg

HARMAR EXCLUSIVE

- Padded hold-down arm conveniently secures power wheelchair
- No chair modifications
- Incredibly small platform just 40 cm x 70 cm
- Swing-away and class II options available

**AL580XL XL Profile MWD Lift**

Extra Large Heavy Duty compact lift for larger power wheelchairs. Transports a 35cm mid-wheel drive (MWD) power chair with solid suspension casters.

Capacity: 160 kg

Installed Weight: 29 kg

HARMAR EXCLUSIVE

- Padded hold-down arm conveniently secures power wheelchair
- No chair modifications
- Incredibly small platform just 45 cm x 70 cm
- Swing-away and class II options available

**More Lift. Lighter Weight.****Harmar Profile Lifts Reduce Installed Weight vs. the Competition**

	AL160	AL580 / AL580XL	Competitor 1	Competitor 2
Lift	33.5 kg	28.5 kg	42 kg	44.5 kg
Hitch Adapter	3.175 kg	3.175 kg	4 kg	4 kg
Tie Down Retractors	0 kg	0 kg	6.5 kg	6.5 kg
<b>Total Installed</b>	<b>36.675 kg</b>	<b>31.675 kg</b>	<b>52.5 kg</b>	<b>55 kg</b>

Over  
13.5 kg's  
Lighter!

**The Benefits of Profile Design**

- Better visibility out rearview mirror
- Lighter weight fits more applications.
- Improves drive-ability
- Attractive, less conspicuous silhouette

**Hitch Solutions for Profile Lifts**

## HEAVY DUTY

### Outside Auto Lifts

As many power chairs and scooters grow in size, Harmar offers a range of heavy-duty, 180 kg capacity versions of our most popular outside lifts. These new, heavy duty outside lifts add to the full line that includes 180kg Inside and Hybrid Lift models.

Shown: AL500HD with Swing-away option

#### NEW! AL100HD Universal Scooter Lift

Sets the standard for all other Scooter Lifts. Combine with virtually any scooter/auto application.

Capacity: 180 kg  
Installed Weight: 38 kg

- Automatic hold down foot
- 70cm x 100cm aluminum deck, adjustable cradle extends up to 115cm
- Manual crank backup and license plate mount included
- Swing-away option available
- Class III hitch adapter standard, class II upgrades available

Shown: AL500HD

**AL300HD Heavy-Duty Fusion Lift**

The AL300HD has the power to heft 180 kg's and easily accommodates most power chairs and power scooters. It's adjustable wheel cradle extends up to 115cm.

Capacity: 180 kg

Installed Weight: 37 kg

**AL301XLHD XL Heavy-Duty Fusion Lift**

Extra long and heavy duty 180 kg's capacity. The AL301XLHD offers the largest platform in the industry plus the strength to handle extra large power chairs and scooters. The wheel cradles adjust easily, extending up to 135cm long.

Capacity: 180 kg

Installed Weight: 46 kg

**AL500HD Heavy-Duty Universal Power Chair Lift**

The AL500HD is Harmor's heavy-duty version of our popular Universal Power Chair Lift, with the increased weight capacity of 180 kg. It secures the large power chair with ultra-safe and versatile Q'Straint retractors.

Capacity: 180 kg

Installed Weight: 35 kg

**AL625HD Heavy Duty Hybrid Van Lift**

More capacity for today's larger power chairs and scooters. Ideal for mini-vans and full-size vans. Drive-on / Drive-off dual entry platform. Remote hand controls standard

Capacity: 180 kg

Installed Weight: 78 kg

# The Power of HD

Today's heavier power chairs and scooters require an extra capacity lift. Harmor delivers with the HD series that offers:

- Reinforcements to accommodate increased loads
- Platform securement fits larger power chairs or scooters
- Heavier capacity ensures sufficient power delivery
- Meets the needs of owners with larger power chairs
- Eliminates the need for ramps for trucks and full-sized vans

**Class III Hitch Solutions Available for Heavy Duty Auto Lifts**

## Legacy Series Outside Auto Lifts

Harmar is America's Lift Leader—selling more and better choices in mobility than any other manufacturer. We maintain our leadership through constant attention to upgrading and improving our products. And our industry innovations have set new standards for quality, convenience, reliability and safety.

Harmar's comprehensive line of auto lifts—Outside, Inside, Hybrid, Profile, Heavy-Duty, and Micro—enables our dealers to quickly and easily meet every customer need. Harmar quality, value, dependability and safety put dealers in the driver's seat to make more sales.

Shown: AL100

# DOCK 'N' LOCK

## VEHICLE LIFTS

### Securement System for Power Wheelchair Security

Dock 'N' Lock's dual contact horizontal bar-locking design far surpasses vertical single-bolt contact systems for user security.

- Compact docking bar maximizes ground clearance
- Allows the wheelchair to pass over obstacles without interference.
- Chair docking bar in - stalls easily. (Included)

Shown: AL570

#### AL570 Power Chair Lift with Dock 'N' Lock

Compact, light-weight and automatic

Capacity: 160 kg

Installed Weight: 31 kg

- Generation 2 Design with Dock 'N' Lock automatically secures power chair to platform with positive lock docking device
- Adjusts to accommodate a wide range of power chairs
- Manual backup & license plate mount enclosed
- Class III hitch adapter standard; Class II upgrades available
- Includes specified Plow Kit for Power Wheel Chair
- Swing-away option available

#### AL570XL Extra Large Power Chair Lift with Dock 'N' Lock

Automatic docking for larger power wheelchairs

Capacity: 160 kg

Installed Weight: 36 kg

- Dock 'N' Lock automatically secures large power chairs to platform with a positive lock docking device
- Adjusts to accommodate the largest power chairs
- Manual backup & license plate mount included
- Class III hitch adapter standard; drop adapter upgrades available
- Includes specified Plow Kit for Power Wheel Chair
- Swing-away option available

# Inside Auto Lifts

Harmar Inside Lifts safely secure and protect Power Chairs, Scooters or manual wheelchairs inside the cargo area of a vehicle—typically while maintaining the third-row seats.

## Key Differences In Axis Solutions:

### Axis I

A single axis lift rotates manually. It also has adjustable base and arm height.

### Axis 2

Double axis lifts offer fully powered rotation plus lifting for easy loading.

### Axis 3

Triple axis lifts provide fully powered lifting, boom extension and rotation for the easiest, most effortless loading.

## Quality Assured

3-year Transferable  
Warranty

Shown: AL435

## AL435 Axis III / 3-Axis Inside Lift

The ultimate inside lift solution.

Capacity: 180 kg

Installed Weight: 34.5 kg

- 30 cm of Power Extension to Reach Beyond Rear Bumper
- New, Simplified Base Fits in a Smaller Footprint
- Easier to Install and Disassemble
- Faster Mounting with Fewer Holes, Less Drilling
- Passenger or Driver Install
- Wireless Keychain, Remotes Included
- 3-Year Transferable Warranty

## AL425 Axis II / 2-Axis Inside Lift

Lifts and rotates under power.

Capacity: 180 kg

Installed Weight: 30 kg

- Fully powered lifting and rotation for effortless loading
- Only 30" of headroom required
- Infinite adjustability allows for faster installations in more applications
- Offset post allows the mobility device to be safely unloaded on the side of the vehicle
- Installs on either side of vehicle
- Weather-resistant hand control (wireless option available)
- Docking device included

## AL225 Axis II Lite / 2-Axis Inside Lift

Medium capacity, economical version of AL425.

Capacity: 110 kg

Installed Weight: 25 kg

- Light duty, economical version of the AL425
- Powered rotation and lifting
- Adjustable base and arm height
- Weather-resistant hand control (wireless option available)
- Passenger side standard, driver side available
- Offset post allows the mobility device to be safely unloaded on the side of the vehicle
- Docking device included

## AL215 Axis I / Single Axis Inside Lift

Power lifting and manual rotation.

Capacity: 115 kg

Installed Weight: 19 kg

- Light duty, economical solution
- Manual rotation with lockout pin
- Adjustable base and arm height
- Weather-resistant hand control
- Passenger side standard, driver side available
- Offset post allows the mobility device to be safely unloaded on the side of the vehicle
- Docking device included

## Key Features

Easy-to-use Hand Control

Extensive Docking Device Selection

Two Wireless Keychains included with AL435T, AL435, and AL435LP. Optional for AL425, AL225, AL215

# Hybrid Auto Lifts

The best of both worlds.

Harmar Hybrid Lifts provide easy drive-on, drive-off convenience for interior storage of Power Chairs or Scooters.

Available for Minivans, SUVs, full-size vans and some Cross - overs. And our AL600 is the most compact hybrid in the industry!

## When to Recommend a Hybrid Lift

- Easy one-button loading
- Universal design works with most Power Chairs and some scooters
- Necessary for those unable to operate a boom lift
- Uses existing seat-attachment points, no drilling required
- No docking device installation needed, saving installation time!
- Compatible with side-door vans

### AL600 Hybrid Platform Lift

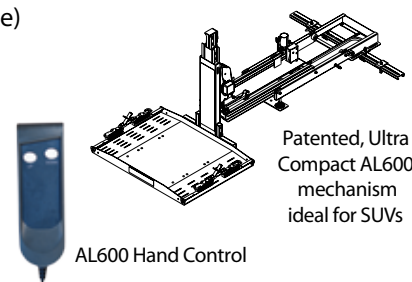

Ultra-compact, patented design fits more applications. Accommodates virtually all scooters & power chairs.

Capacity: 160 kg

Installed Weight: 81 kg

- Remote hand control (wireless option available)
- No drilling required on most applications; connects to existing third row seat hardware while saving second row seating
- No scooter or chair modifications, uses four secure tie downs
- Only 80cm headroom required
- Depth required now only 110cm!
- Platform size: 70cm x 95cm, optional rear wheel cradle extends up to 125 cm

Patented, Ultra Compact AL600 mechanism ideal for SUVs

AL600 Hand Control

### AL625 Hybrid Van Lift

Ideal for minivans and full-size vans.

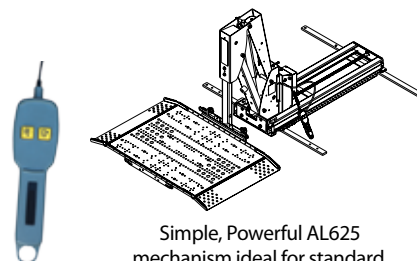

Accommodates virtually all power chairs and scooters

Capacity: 160 kg

Installed Weight: 77 kg

- Remote hand controls standard
- Drive-on / Drive-off dual entry platform

Simple, Powerful AL625 mechanism ideal for standard minivans and heavier loads.

AL625 Hand Control

## Special Options

### New! EZ-Detach Seat back

Convert a power chair to a lower profile that fits into smaller cargo areas. Turn the large 'soft touch' T-handles to loosen the cushion and pull it off with a metal handle that distributes weight for easy lifting and reinstallation.

### Sure-Lok® Titan Retractors

A single-handed secure - ment solution. Just pull the straps, hook onto mobil - ity device, and turn re - tractor dial to tighten.

### Battery Pack

Portable unit for use when a lift is often transferred from one vehicle to another or whenever it's not possible or desired to hard wire a lift to the vehicle's battery. Can be stored in vehicle as alternate or emergency power source.

Shown: AL625HD in Minivan

HARMAR EXCLUSIVE

### AL690 Side Door Hybrid Platform Lift

Delivers wheelchair or scooter next to driver or passenger door. A Harmar exclusive! Works with most mini-vans.

Capacity: 125 kg      Installed Weight: 84 kg

- Compatible with many power chairs and shorter scooters
- Remote hand control (wireless option available)
- No drilling required with most applications, connects to existing second row seat hardware
- No scooter or chair modifications
- Third row seating spared in most applications
- 40cm to 70cm adjustable width platform, 95cm length
- Only 80cm headroom required

## Micro Auto Lifts

Harmar Micro Lifts offer easy, efficient transport of micro scooters, micro power chairs, or manual wheelchairs.

Their light weight and low profile make the ideal fit for compact, fuel-efficient vehicles.

Shown: AL010 / 050

**AL001 Universal Manual Carrier**

Economical, manual solution  
for power chairs and scooters

Capacity: 225 kg

Installed Weight: 38 kg

- No chair / scooter modifications required
- Folds when not in use
- Class III hitch adapter standard; Class II hitch adapter upgrade available
- 70cm x 120cm Platform with a 150cm Folding Ramp

**AL003 Tilt-n-Tote**

Lightweight non-powered solution  
for manual folding wheelchairs

Capacity: 45 kg

Installed Weight: 11 kg

- Carries manual folding wheelchairs
- Tilting joint for roll-on ease
- Unique adjustable hold-down arm
- Folds down to access tail and lift gate
- No chair modifications required
- Folds when not in use
- Ball mount standard, upgrades available
- Hitch post not needed with ball mount

Mega 8 Scooter + AL015 Micro Scooter Lift

## Truck Lifts

Harmar provides the power and security to transport virtually any mobility device via Standard, Extended Cab or Crew Cab trucks.

They accommodate a growing variety of truck cab and bed sizes.

Our Tailgater truck lift models include a unique off-set arm that loads a device from curb side or behind a 60cm tailgate.

### Key Differences in Truck Lift Solutions:

- Speed models are 2 times faster than HD (Heavy-duty) models and ideal for manual wheelchairs
- Heavy Duty models offer the greatest weight capacity and are ideal for Power Chairs and Scooters.
- Available for driver or passenger-side mounting. (Specify at time of order.)
- 3-Year Transferable Warranty

## America's Truck Lift Leader!

### AL435T Tailgater
